

EM/EW7033 3Tb Firmware Update Instructions

Nederlandstalige instructies zie pagina 5

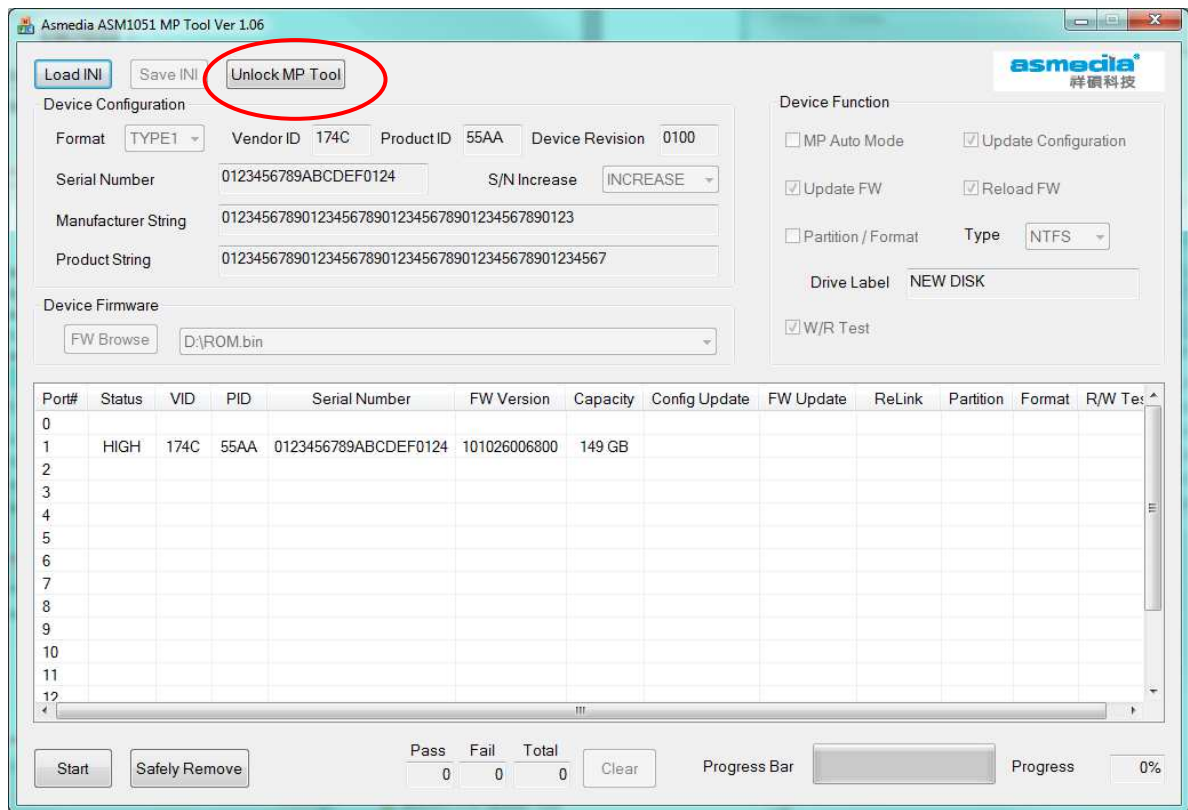

English Instructions

1.0 Update procedure

1. Connect the EM/EW7033 to a free USB port.
2. Depending on your Operating System; choose the Win-32-bit or Win-64-bit folder.
3. Start the MPTool.exe (On windows 7, run it as administrator by using the right mouse button and select Run as Administrator).
4. Your EM/EW7033 should be available on one of the ports. It doesn't matter which port.

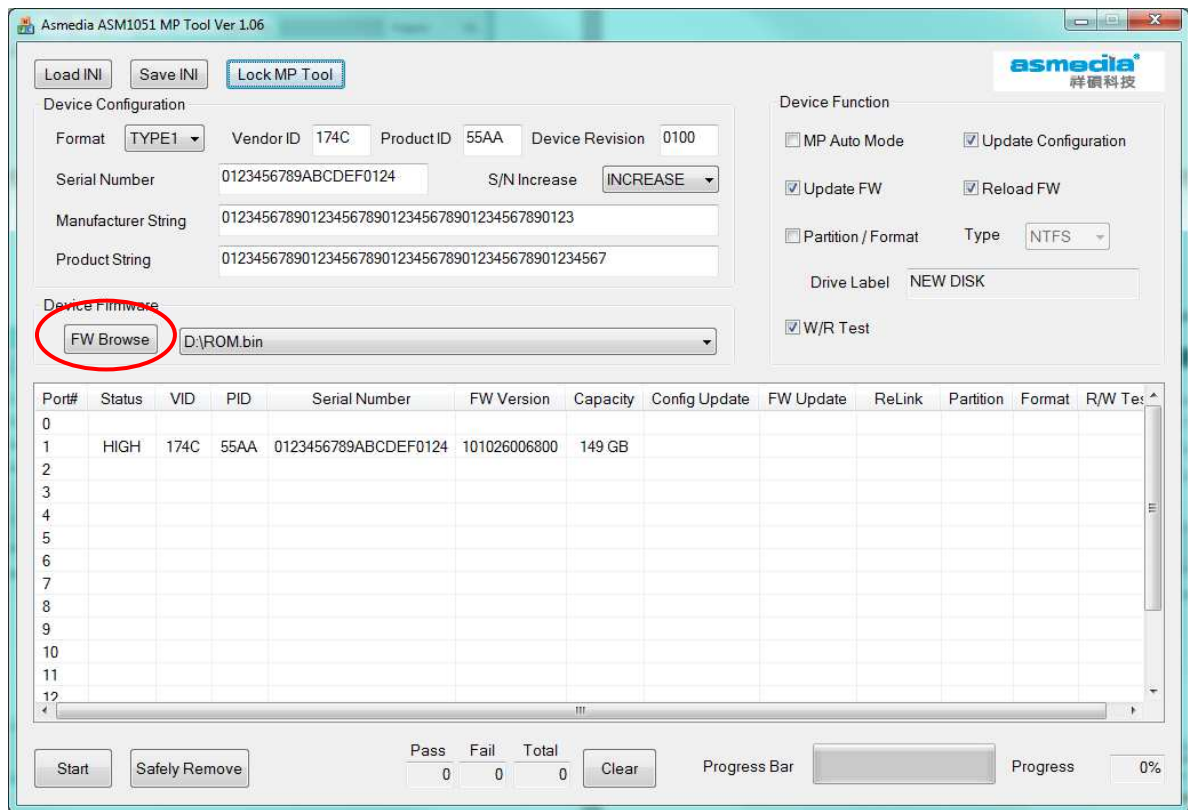

5. Select Unlock MP Tool.

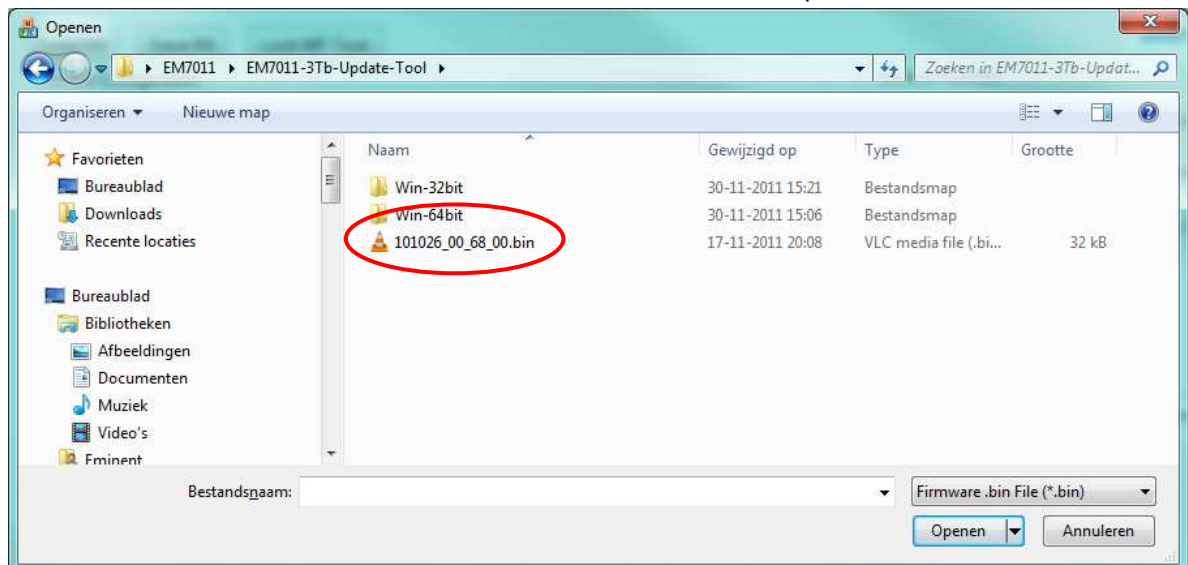

6. Fill in the password : asmedia and select OK

7. Select FW Browse

8. Select the file 121005_01_00_00.bin This file is on the root of the Update Tool folder.

9. Select start and wait until the update process has finished (Progress Bar at 100%) and the result is Pass.

The screenshot shows the Asmedia ASM1051 MP Tool Ver 1.06 interface. The 'Device Configuration' section includes fields for Vendor ID (174C), Product ID (55AA), Device Revision (0100), Serial Number (0123456789ABCDEF0125), S/N Increase (INCREASE), Manufacturer String, and Product String. The 'Device Firmware' section shows the FW Browse button and a file path. The 'Device Function' section includes checkboxes for MP Auto Mode, Update Configuration, Update FW, Reload FW, Partition / Format, and W/R Test, along with a Drive Label field (NEW DISK) and a Type dropdown (NTFS). A table displays the update results for Port# 1, showing a successful update (PASS) for Config Update, FW Update, ReLink, and R/W Test. The 'Start' button is circled in red. The 'Pass' status is circled in red, showing 1 Pass, 0 Fail, and 1 Total. The 'Progress Bar' is circled in red, showing 100% progress.
