- Built-in card reader for SD, SDHC, CF, XD cards
- Connectors: USB, HDMI 1.1, composite video, and SPDIF coaxial audio
- Easy installation
- 5-Year warranty
- Accessible helpdesk
- Multilingual user manual

Plug-and watch! The EM7065 USB Host player is the ideal solution to quickly plug and watch your favourite media files. Simply plug in an USB drive or stick, and you'll gain instant access to all your media. Simply place your SD, CF or XD card into the EM7065's built-in card reader and view photos and movies!

If your friends or family stop by with their latest vacation photos, you can display them directly on your television. And if you want to watch a movie, just connect your USB hard drive to the USB host port.

The EM7065 USB Host player supports most of today's popular standard-definition formats, like JPEG, BMP, GIF, WAV, MP3, LRC, AVI, ASF, VOB, DAT, MP4, MPG, DivX, MPEG1, MPEG2, MPEG3, MPEG4, VCD and DVD (VIDEO_TS with menu support).
