DESCRIPTION

The Eminent EM7285 hdMEDIA RT hd media player plays all your movies in full HD on your television. The next generation Realtek chipset supports almost all file formats in Full HD 1080P. The HD media player Eminent EM7285 hdMEDIA RT comes with a five year warranty.

Limited Edition full black aluminium body

The Eminent HD media player EM7285 hdMEDIA RT comes in an unique full aluminium body, that keeps the unit cool, and isolates noise from the optional internal hard drive. A sleek black finish and attractive LED display complete the units stunning good looks!

Easy hard disk mounting system for your comfort

The Eminent EM7285 hdMEDIA RT is equipped with an easy-mount slot on the right side, that allows easy access to a 3.5" SATA hard drive bay. This is definitely the most convenient way to connect and remove your hard disk!

Built-in 300N Wireless networking

The Eminent HD media player EM7285 has been equipped with a built-in wireless adapter and antenna. Using a 300N wireless router, like the Eminent EM4570 or EM4542, you will be able to quickly access all the media in your home network. The wireless adapter is backwards compatible with 802.11B and G networks, but for an optimal experience we recommend to use a wireless N network.

Play from internal hard disk or USB hard disk

Play movies, listen to music or watch pictures from the optional internal hard disk. And if you need more storage, simply connect a USB stick or hard drive and display your media files on your television. The Eminent HD media player EM7285 hdMEDIA RT also supports a broad range of mass-storage devices like digital cameras, camcorders, and portable music players, allowing you to directly connect those by USB and play back the media stored on them.

USB 3.0 super speed for data transfer from your pc to the EM7285

Use the USB 3.0 connection on the EM7285 to connect to your computer equipped with an USB 3.0 port and you will have all your data copied with an amazing speed to the internal hard disk. Did you know that by using USB 3.0 you will save a lot of time copying your files?

Access your files stored on your network

The Eminent EM7285 hdMEDIA RT can play media directly from your network. So if you have your media files stored on a computer, or NAS device, you will love the networking support that has been integrated into the HD media player EM7285 hdMEDIA RT. The internal Gigabit LAN port allows you to quickly connect your home network and play files directly from your PC or other devices. Featuring full UPnP, SAMBA and NFS support you will never have a dull moment in your home again.

Plays music and photos at the same time

The Eminent HD media player hdMEDIA RT supports a broad range of audio files including MP3, OGG, and the popular lossless FLAC format. And it's capable of multitasking as well, allowing you to play your music collection while watching your photos in a slide show at the same time!

Powerful Realtek chipset supports almost all video codecs

Thanks to the next-generation RT1185 processor, the EM7285 hdMEDIA RT can decode a broad range of video files like MKV, VC-1, AVCHD MPEG-4, H.264 and X.264. All in Full HD 1080P resolutions. Classic formats like DivX, XviD, MPEG-1 and MPEG-2 are also supported. The popular ISO file format for DVD-ROM has full menu, chapters and subtitle support. BD-ROM ISO files can be played back with chapters and PGS subtitle streams as well.

Full HD sound and video experience

The The Eminent HD media player EM7285 not only supports amazing Full HD 1080P video, but also features a crystal clear sound experience by supporting HD sound formats like Dolby TrueHD and DTS-HD master audio over its HDMI 1.3 port. An HD-supporting audio receiver is required for playback of the full HD audio track. For full backwards compatibility, normal DTS(Core) and AC3(Embedded) tracks are available over HDMI 1.3 and SPDIF. The EM7285 is equipped with an internal Dolby Digital (AC3) and DTS decoder, for playback on non-HD equipment as well.

The most effective way to play your media

The Eminent HD media player EM7285 hdMEDIA RT is extremely easy to use. Just connect the HDMI cable to your TV or Digital Receiver, and enjoy the crystal clear picture.

Simple and fast downloads

The network connection allows you to easily download all sorts of media files. The EM7285 comes with built-in Transmission (BitTorrent) and NZBget (Usenet) programs, and can download and extract files for you even if your PC is turned off!

Web services

The EM7285 hdMEDIA RT supports web services like Metafeeds, Flickr, Picasa, Shoutcast Internet Radio and News. The availability of other web services is subject to change.

Limited Edition hdMEDIA RT³ - HD media player

Sparkling interface

True entertainment starts as soon as you turn on the Eminent HD media player. The sparkling interface was created by Chokemaniac, who is a well-known graphics designer.
