Information (EN)

This compatibility list is created to provide information about working and non-working devices on the EM4080 Network USB hub. This document contains tested Eminent products and several other brands and products. This document is not complete, because it is not possible to test every USB device from all different brands. If you have a product which is not listed and is compatible or not, please inform our helpdesk to add it to this document.

Windows 7

Only Eminent products have been tested using Windows 7. USB products from other brands have not been tested yet. The list will be updated when we know it is working properly. If you know a working or non-working USB product, please inform our helpdesk to add it to this document.

What is 'Fail'

If your USB device is listed as 'FAIL' below your operation system, the USB device is not compatible. Some possible causes for this:

- The USB device is only USB 2.0 compatible or
- The USB device is using all of the available bandwidth (i.e. a video stream)

What is 'Pass'

If your USB device is listed as 'PASS' below your operating system, you can use the device on the EM4080 Network Hub.

Informatie (NL)

Deze compatibiliteitslijst is gemaakt om informatie te verstrekken over welke apparaten wel of niet werken in combinatie met de EM4080 Netwerk USB Hub. Dit document bevat geteste Eminent producten en producten van andere merken. Deze lijst is niet volledig, omdat het onmogelijk is om alle mogelijke USB apparaten van alle verschillende merken te testen. Mocht je een product hebben wat niet in de lijst staat en wel of niet werkt dan vernemen wij dat graag via de helpdesk zodat dit toegevoegd kan worden.

Windows 7

Alleen Eminent producten zijn getest in Windows 7. USB producten van andere merken zijn nog niet getest. De lijst wordt bijgewerkt wanneer bekend is of een specifiek product werkt of niet werkt. Als je weet of je eigen USB apparaat werkt of niet werkt, vernemen wij dat graag via de helpdesk.

Wat is 'Fail'?

Als je USB apparaat in de lijst vermeld is met 'FAIL' onder je besturingssysteem, is het USB apparaat niet geschikt om te gebruiken. Een aantal mogelijke oorzaken:

- Het USB apparaat is alleen USB 2.0 compatibel.
- Het USB apparaat gebruikt alle bandbreedte (bijvoorbeeld een videostroom)

Wat is 'Pass'

Als je USB apparaat in de lijst vermeld is met 'Pass' onder je besturingssysteem, is het USB apparaat geschikt om te gebruiken op de EM4080 Netwerk USB hub.

Dit document is verder in het Engels opgesteld.
